

Things to Understand about Dual Enrollment

1—Tuition paid by school (up to 1/12th of state aide allowance); **books, transportation, miscellaneous fees paid by student and/or parent**. District form is required. Student must be junior status and have a qualifying test score on PLAN, ACT, PSAT and/or MME by subject area. Courses that students are eligible to take include core classes we don't offer like Chinese, Russian, Astronomy, Philosophy, etc.

2—Student may or may not count class for high school credit. In most cases unless a student needs the high school credit to fulfill graduation, guidance counselors advise **not** to count the college class for high school credit because some colleges will not count class if taken for high school credit towards a degree program. If a student does choose to take a college class for high school credit, the class must be pre-approved through the **transfer of credit** form. A 3-5 credit college class may count as 5 credits at Hamtramck High School if **pre-approved**.

3—Colleges usually require **assessment testing** to make sure students are placed correctly. Students must make arrangements to complete assessment testing at the college if required.

4—Students must follow all college and/or university **rules** regarding admission, assessment, placement, registration, online classes (Blackboard and other technology requirements), etc. including guest application and/or dual enrollment process.

5—Examples of Equivalency issues (see your guidance counselor for specific examples by subject area):

Algebra I:

Macomb CC Math 1410 Intermediate Algebra

Henry Ford CC Math 110 Intermediate Algebra

Wayne County CC MAT 113 Intermediate Algebra

Wayne State University MAT 0995 Intermediate Algebra

Algebra II:

Macomb CC Math 1410 College Algebra

Henry Ford CC Math 115 College Algebra

Wayne County CC MAT 155 College Algebra

Wayne State University MAT 1050 Algebra with Trigonometry

Statistics:

Henry Ford CC Math 141 Intro. To Statistics

Trigonometry:

Macomb CC Math 1430 College Trigonometry

Wayne County CC MAT 156 Trigonometry

Pre-Calculus:

Macomb CC Math 1460 Pre-Calculus

Henry Ford CC Math 175 Pre-Calculus

Calculus:

Macomb CC Math 1760 Analytical Geometry & Calculus I

Henry Ford Math 180 Calculus I
Wayne County CC MAT 171 Analytic Geometry & Calculus I
Wayne State University MAT 2010 Calculus I
